Wedding Information

Choosing your wedding photographer is one of the most important decisions you will make in planning your wedding. It's not necessarily easy to know who to choose. Yes, there is a lot to consider and the choices can be very confusing.

A consultation is recommended to discuss the flow and plans of your wedding day. This also helps the Bride and Groom finalize wedding plans and also helps Randy and Sheila to understand how you want your special day to be. Your photographer is for your wedding; your wedding is not for your photographer. We like to be as silent as possible and listen to all of your needs!

We normally book between ten and fifteen weddings per year and have no problem filling our schedule. That means we choose our couples as carefully as they choose us. Booking early will guarantee our photographer for your wedding date. Dates are not reserved without a retainer.

We use professional format cameras for your portraits and include Formal, Casual, Journalistic and Creative photography. As all weddings are different, our services are customized to fit each Bride and Groom.

Since part of being professional is being prepared and with over thirty years of experience, we want to comfort you in knowing that we bring backup equipment and duplicate cameras in case of an unexpected equipment problems or breakdown.

Additional Services

Most churches and ministers require that no flashes are to go off during the sacred part of the ceremony. This extends from the moment the minister or priest starts talking through the time he or she announces you as man and wife.

Many churches are now requiring photographers to stay near the back of the church during the ceremony. This is due to a few bad apples who get carried away and get right up into the face of the minister, bride/groom and disrespecting the sacred ceremony. These bad apples are usually amateurs, but not always, who do not carry the proper lenses to get a good image from the back of the church silently

We understand the church and ministers point of view and have never violated a sacred moment either with flash or in any other absurd manner. We place ourselves in a prime location near the back of the church during the ceremony with the proper equipment so as not to disturb either guests or those precious moments.

We will speak to the clergy to clarify their instructions for the sacred part of the ceremony and will abide by them.
